

Bullet Transportation Services

Anaheim, CA

(888)506-7437

Dear Bullet Transportation Customers,

In response to on-going operating expense increases, on Monday, August 15th, Bullet Transportation will implement a 6.9% general rate increase to all points in the US and Canada. Based upon need, specific lanes will receive additional increases. Note, however, that there will be no changes to the Bullet Transportation Absolute Minimum Charge.

All Bullet Transportation employees remain committed to providing exemplary service performance and customer service. The Bullet Transportation goal is to provide a superior level of quality, service, and communication. The general rate increase will allow for reinvestment into the company to ensure we remain capable of improving the customer experience each time we receive a shipment.

Thank you for your commitment to Bullet Transportation. Your loyalty is deeply appreciated. Please direct any questions you may have regarding this general rate increase to your Bullet Transportation Account Executive.

Sincerely,

Kenneth A. Nadler

Director of Pricing & Yield Management
